

Health Care Reform Implementation in Maryland: Ensuring Addiction Treatment, Prevention and Recovery Support Services are Covered

The Maryland Chapter of the National Council on Alcoholism and Drug Dependence and the Maryland Addictions Directors Council invite you to join other addiction treatment, prevention and recovery support stakeholders as we coordinate our efforts in participating in the implementation federal health care reform in the state.

When: Friday, July 30, 2010 – 8:30 a.m. to 12 noon

Where: Clarence "Du" Burns Arena
1301 South Ellwood Avenue
Baltimore, MD 21224
(parking available on-site)

Why: The Maryland Health Care Reform Coordinating Council is about to approve its interim report to send to the Governor with recommendations on the preliminary steps needed to implement the Patient Protection and Affordable Care Act. Among the recommendations are those to create six workgroups that will start meeting immediately (visit their website at www.healthreform.maryland.gov for a list of those workgroups). Those concerned about ensuring that addiction treatment and recovery issues are raised appropriately in every venue and that advocates and providers are participating in each workgroup (which are all open to the public) should attend this meeting.

RSVP: We need to know how many people are coming in order to have enough sustenance! Please email Nancy Rosen-Cohen at nancy@ncaddmaryland.org to let us know if you will be attending.
